Supplementary Figure 3. Quantile-Quantile (QQ) plots of body mass index (BMI) (kg/m squared) by sex and education level. The black diagonal line is the line of equality (y=x) between the baseline and subsequent years. The baseline year is 1993. The vertical dashed lines represent clinical cutoffs for overweight status (BMI≥25 kg/m squared) and for obese status (BMI≥30 kg/m squared).
