Test for CD30 expression early—an accurate diagnosis is essential.1-6

The accurate diagnosis of lymphoma subtypes can be challenging given the diversity of presentation, heterogeneity in histopathology, and the fact that there are over 70 World Health Organization (WHO)-recognized types.1-3 Misclassification of lymphoma may impact treatment decisions.4-6

NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines®) recommend CD30 IHC evaluation for the diagnosis of a variety of lymphomas, including:7

- Diffuse large B-cell lymphoma (DLBCL)7
- Classical Hodgkin lymphoma (CHL)7
- Mycosis fungoides/Sézary syndrome7
- Primary cutaneous CD30+ T-cell lymphoproliferative disorders (PCTLD)7
- PTCLs
  - sALCL, anaplastic lymphoma kinase-positive (sALCL, ALK-positive)7
  - sALCL, ALK-negative7
  - Angioimmunoblastic T-cell lymphoma (AITL)7
  - Enteropathy-associated T-cell lymphoma (EATL)7
  - PTCL-NOS7

An accurate diagnosis is essential for the optimal treatment of patients with lymphoma.1-6

Do you receive e-alerts from AJCP?

OUP’s journal alerting service offers easy ways to stay updated on the latest content from the American Journal of Clinical Pathology.

Email table of content alerts (eTOCs) are delivered when a new issue publishes online and Advance Access alerts are sent weekly when content publishes online ahead of print.

Manuscript Submission

To facilitate the submission and review processes of all manuscripts, we have incorporated ScholarOne’s Manuscript Central browser-based manuscript submission software. The following are a few of the advantages authors gain by using Manuscript Central:

- Upload full text and graphics without the limitations of e-mail
- Submit a variety of different file formats
- Instantly learn the status of submitted manuscripts currently in the review process
- Receive automatic e-mail messages as your manuscript travels through the review process

Once you create a Manuscript Central account at http://mc.manuscriptcentral.com/ajcp and submit a manuscript, you will have immediate access to information regarding your submission at any time, day or night.
