Supplementary Figures

Index

Supplementary Fig. 1 ................................................................. 2
Supplementary Fig. 2 ................................................................. 3-5
Supplementary Fig. 3 ................................................................. 6
Supplementary Fig. 1. AUC distributions calculated by 4 classification methods
Supplementary Fig. 2. ROC curves for (a) GSE3494, (b) GSE4922, (c) GSE7390, (d) GSE24450, and (e) NKI as training dataset
Supplementary Fig. 3. AUC values calculated varying sample (good + poor) size for all datasets
