NEPHROLOGY TRAINING
Enhancing outpatient nephrology experience for internal medicine residents
V. Agrawal, K.D. Jhaveri and H.H. Shah 429

An end-of-life practice survey among clinical nephrologists associated with a single nephrology fellowship training program
K.A. Ceckowski, D.J. Little, J.R. Merighi, T. Browne and C.M. Yuan 437

GLOMERULAR DISEASE
Collapsing glomerulopathy: a 30-year perspective and single, large center experience
L. Nicholas Cossey, C.P. Larsen and H. Liapis 443

Intravenous cyclophosphamide and oral prednisolone is a safe and effective treatment option for idiopathic membranous nephropathy
V. Mathrani, A. Alejmi, S. Griffin and G. Roberts 450

RITUXIMAB
Infectious complications of rituximab therapy in renal disease

Infectious complications of a rituximab-based immunosuppressive regimen in patients with glomerular disease

Immunoglobulin levels and infection risk with rituximab induction for anti-neutrophil cytoplasmic antibody-associated vasculitis

GENETIC KIDNEY DISEASE
Sickle cell disease and albuminuria: recent advances in our understanding of sickle cell nephropathy

Prevalence and determinants of microalbuminuria in children suffering from sickle cell anaemia in steady state

Diabetes, deafness and renal disease
I. Godinho, J. Gameiro, S. Jorge, F. Abreu, M. Neves, J.A. Lopes and A. Gomes da Costa 487

Rare genetic variants in Shiga toxin-associated haemolytic uremic syndrome: genetic analysis prior to transplantation is essential

VASCULAR DISEASE
Revisiting angioplasty for renovascular hypertension

Split renal function in patients with unilateral atherosclerotic renal artery stenosis—effect of renal angioplasty

The importance of accurate measurement of aortic stiffness in patients with chronic kidney disease and end-stage renal disease
S.F. Adenwalla, M.P.M. Graham-Brown, F.M.T. Leone, J.O. Burton and G.P. McCann 503

EXERCISE
Captivating a captive audience: a quality improvement project increasing participation in intradialytic exercise across five renal dialysis units
L. Abdulnassir, S. Egas-Kitchener, D. Whibley, T. Fynmore and G.D. Jones 516

High-density lipoprotein particle pattern and overall lipid responses to a short-term moderate-intensity aerobic exercise training intervention in patients with chronic kidney disease

AKI
Acute kidney injury due to multiple Hymenoptera stings—a clinicopathological study
S. Vikrant and A. Parashar 532

CKD-MBD
Gastrointestinal complications induced by sevelamer crystals
C. Yuste, E. Mérida, E. Hernández, A. García-Santiago, Y. Rodríguez, T. Munoz, G.J. Gómez, A. Sevillano and M. Praga 539

GFR REFERENCE INTERVALS
Age-dependent reference intervals for estimated and measured glomerular filtration rate

PERITONEAL DIALYSIS
Reasons for admission and predictors of national 30-day readmission rates in patients with end-stage renal disease on peritoneal dialysis
L. Chan, P. Poojary, A. Saha, K. Chauhan, R. Ferrandino, B. Ferket, S. Coca, G. Nadkarni and J. Uribarri 552
Do we really need more evidence to use hepatitis C positive donor kidney more liberally?  
K. Joglekar, J.D. Eason and M.Z. Molnar  

**Effect of kidney donor hepatitis C virus serostatus on renal transplant recipient and allograft outcomes**  
J.B. Cohen, K.C. Eddinger, B. Shelton, J.E. Locke, K.A. Forde and D. Sawinski  
(See related article by Joglekar et al. Do we really need more evidence to use hepatitis C positive donor kidney more liberally? *Clin Kidney J* (2017) 10: 560–563.)

**INTERVENTIONAL NEPHROLOGY**

Risk factors for bleeding complications after nephrologist-performed native renal biopsy  
J.S. Lees, E.P. McQuarrie, N. Mordi, C.C. Geddes, J.G. Fox and B. Mackinnon

**RETRACTION**

Serum microRNAs are altered in various stages of chronic kidney disease: a preliminary study  

**Announcements**
