

Supplementary File 2

AFRICA (n=965)

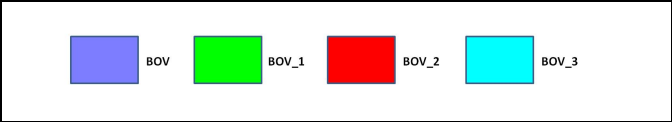

AMERICAS (n=1662)

A grayscale globe centered on the Pacific Ocean. The landmasses of North America, South America, Europe, Africa, Asia, and Australia are visible in light gray. Australia and New Zealand are highlighted in a solid dark green color. The globe includes a grid of latitude and longitude lines.

A globe centered on the Atlantic Ocean, with Europe highlighted in green. The map shows the continents of North America, South America, Europe, and Africa, with latitude and longitude lines.
