Letter to the Editor

Repair of truncus arteriosus

R.H. Anderson*

Cardiac Unit, Institute of Child Health, 30 Guilford Street, London WC1N 1EH, UK

Received 18 July 2001; accepted 7 August 2001

When commenting on the paper of Danton and colleagues concerning surgical repair of the common arterial trunk, I pointed out that their optimal procedure was first described by the late Kenneth Reid [1]. They indicated in the discussion that they would modify this manuscript accordingly. Sadly, they did not [2].

That does not, however, detract from Mr Reid’s precedence with this particular procedure.
