Supplemental Data

Aldosterone Secretagogues Increase Adrenal Blood Flow in Male Rats

Ishrath Ansurudeen, Phillip G. Kopf, Kathryn M. Gauthier, Stefan R. Bornstein, Allen W. Cowley, Jr., and William B. Campbell

Supplemental Figure Legends

Supplemental Figure 1. Effect of endothelin-1 (ET-1) on (A) ABF and (B) MAP. Each value represents the mean ± SEM for n=7. *Significantly different from basal (ANOVA with SNK post hoc analysis).

Supplemental Figure 2. Effect of sodium nitroprusside (SNP) on (A) ABF and (B) MAP. Each value represents the mean ± SEM for n=6. *Significantly different from basal (ANOVA with SNK post hoc analysis).

Supplemental Figure 3. Time course of ABF changes to bolus vehicle saline injections (100-200 ul). Each value represents the mean ± SEM for n=12.
