European Journal of Public Health
Official journal of the European Public Health Association

AIMS AND SCOPE
The European Journal of Public Health is a multidisciplinary journal aimed at attracting contributions from epidemiology, health services research, management, ethics and law, health economics, social sciences and environmental health. The journal provides a forum for discussion and debate of current international public health issues with a focus on the European region. Quarterly issues contain refereed original articles, editorials, commentaries, book reviews, news, letters to the editor and announcements of events.
