CORRIGENDUM

Uniparental disomy at chromosome 11p15.5 followed by HRAS mutations in embryonal rhabdomyosarcoma: lessons from Costello syndrome

Christian P. Kratz, Doris Steinemann, Charlotte M. Niemeyer, Brigitte Schlegelberger, Ewa Koscielniak, Udo Kontry and Martin Zenker

Human Molecular Genetics 16, 374–379; doi:10.1093/hmg/ddl458

The authors would like to apologise for an error in the above paper. We mistakenly state that H19 and CDKN1C are maternally imprinted genes, although they are maternally expressed. The basic message of our work and the data presented by us is not affected by this mistake.
