Erratum

A systematic review and meta-analysis of randomized controlled trials on metformin co-administration during gonadotrophin ovulation induction or IVF in women with polycystic ovary syndrome

Michael F. Costello, Michael Chapman and Una Conway

The authors wish to point out that the data from the randomized controlled trial by Tang *et al.* included in this meta-analysis, which was obtained following contact with the authors after publication in abstract form, have now been published in full as follows.

This reference should replace that of Tang *et al.* (2005) cited throughout the article, and the statements on page 1389 and in Table II that this trial is published in abstract form only are incorrect.
