Dietary composition in the treatment of polycystic ovary syndrome: a systematic review to inform evidence-based guidelines

References

The authors would like to correct the following mistakes in the footnote of our recently published manuscript (Moran et al., 2013a). Firstly, we incorrectly identified the publication by Moran et al. (Moran et al., 2013b) in the Journal of the Academy of Nutrition and Dietetics as a meta-analysis. This publication was a systematic review with no meta-analysis. Secondly Moran et al. 2013 was incorrectly hyperlinked. The URL should be http://www.andjrnl.org/article/S2212-2672(12)01925-9/abstract. We would like to apologise for these errors.
