Erratum

Efficacy and safety of nucleoside reverse transcriptase inhibitor-sparing salvage therapy for multidrug-resistant HIV-1 infection based on new-class and new-generation antiretrovirals

Arkaitz Imaz, Josep M. Llibre, Marta Mora, Gracia Mateo, Angela Camacho, José R. Blanco, Adrian Curran, José R. Santos, Estrella Caballero, Isabel Bravo, Francisco Gayá, Pere Domingo, Antonio Rivero, Vincenç Falco, Bonaventura Clotet and Esteban Ribera

In Figure 1(b) the final pair of numbers of patients for the NRTI-containing and NRTI-sparing groups was transposed. The corrected Figure is reproduced below. The authors apologize for this error.

Figure 1. Percentage of patients with HIV-1 RNA <50 copies/mL in NRTI-containing and NRTI-sparing regiments. (a) Intent-to-treat analysis. (b) On-treatment analysis.
