

Figure S3

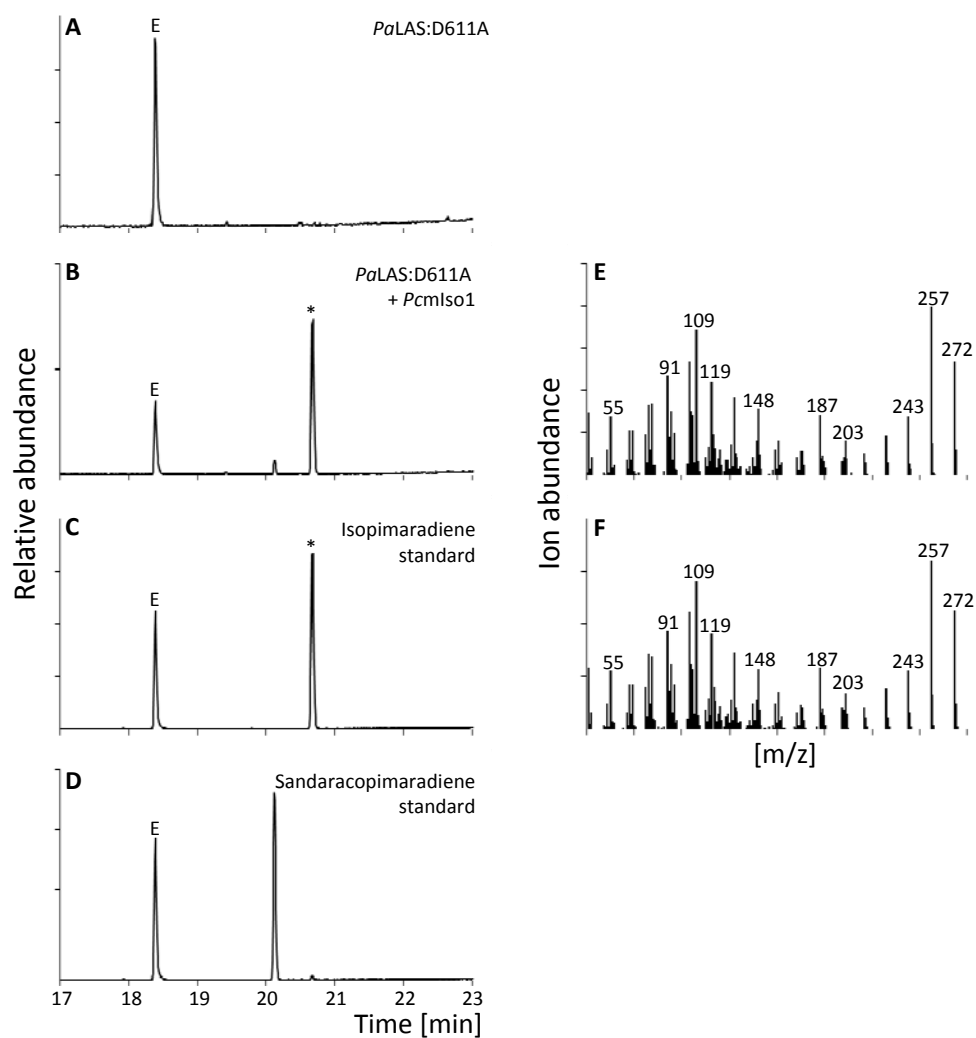

Figure S3. Diterpene product profiles of *PcmISO1*. GC-MS analysis of reaction products of [A] *PaLAS:D611A* and [B] *PaLAS:D611A* combined with *PcmISO1* as compared to retention times of authentic [C] isopimaradiene and [D] sandaracopimaradiene standards. [E-F] mass spectra of reaction products marked with an asterisk in [B] and [C]. E internal standard 1-eicosene.
