Supplementary Table 1.

Multinomial Logistic Regression Models Predicting Death or Attrition Between 2015 and 2016 Among Low-and Moderate-Income Older Renters

	Death		Attrition	
	Unadjusted	Adjusted	Unadjusted	Adjusted
Housing Cost Burden (ref = No HCB)				
Moderate HCB	1.87†	2.18†	2.31*	1.98†
Severe HCB	0.76	0.92	4.03***	3.30**
Female		0.61		2.08*
Age (1-6 scale)		1.29*		0.78*
Race/Ethnicity (ref = Non-Hispanic White)				
Non-Hispanic Black		0.78		1.17
Hispanic		0.36		1.50
Another race/ethnicity		2.56		1.45
Lives alone		1.17		0.86
Education (ref = below high school)				
High school		1.47		0.75
Beyond high school		0.68		0.55
Annual income (logged)		1.41		1.03
Medicaid		1.82		0.85
Housing quality issue		2.14		0.74
Neighborhood physical disorder		0.07***		1.03
Low neighborhood social cohesion		1.01		1.38
Constant		0.00†		0.06†

Note. Referent is participants who are alive and not lost to attrition between 2015 and 2016. Coefficients are reported as relative risk ratios; regressions employ weights and adjust for standard errors to account for complex survey design. HCB = Housing Cost Burden. (N = 1,064)
†$p < 0.10$. *$p < 0.05$. **$p < 0.01$. ***$p < 0.001$.

Supplemental Table 2.

Multinomial Logistic Regression Models Predicting No Longer a Renter, Death, or Attrition Between 2015 and 2017 Among Low- and Moderate-Income Older Renters

	No Longer a Renter		Death		Attrition	
	Unadjusted	Adjusted	Unadjusted	Adjusted	Unadjusted	Adjusted
Housing Cost Burden (ref = No HCB)						
Moderate HCB	1.07	1.04	1.76*	1.84*	2.06**	1.66*
Severe HCB	1.25	1.20	1.18	1.19	2.65***	2.04*
Female		1.22		0.94		1.31
Age (1-6 scale)		1.15		1.32**		0.83*
Race/Ethnicity (ref = Non-Hispanic White)						
Non-Hispanic Black		0.96		0.53*		0.66
Hispanic		0.59		0.66		1.46
Another race/ethnicity		1.27		1.88		1.90
Lives alone		0.62†		1.02		0.68†
Education (ref = below high school)						
High school		1.50		1.04		0.84
Beyond high school		1.25		0.80		0.69
Annual income (logged)		1.03		1.02		0.94
Medicaid		0.96		1.42		0.64
Housing quality issue		1.19		1.84†		0.99
Neighborhood physical disorder		0.70		0.22**		0.83
Low neighborhood social cohesion		0.84		0.86		1.67**
Constant		0.08		0.05*		0.66

Note. Referent is participants who are renters, alive and not lost to attrition between 2015 and 2017. Coefficients are reported as relative risk ratios; regressions employ weights and adjust for standard errors to account for complex survey design. HCB = Housing Cost Burden. (N = 1,064)

†$p < 0.10$. *$p < 0.05$. **$p < 0.01$. ***$p < 0.001$.
